## LEXINGTON NOTES

## HANSFORD

Edward Beckman has distinction of being the first person in Winchester to receive mail by airplane. The letter was an important one containing instructions to the foreman of a force of men at work on one of Clark county's highways, and was from Col. James Maret, state Road Inspector, of Lexington. Captain Beaver, the pilot of Lexington Aero Company delivered the letter and made the eighteen mile run from Lexington in ten minutes; this morning.

Winchester has the honor of being the first city in the South to receive mail by airplane. —Winchester Sun, Sep. 22

## HIGH PRICES

High prices mean cheap dollars. Cheap dollars induce speculation. Speculation is fine so long as prices soar—but look out for the drop.

Here is one advice in times like these: Avoid debt, for the debt may have to pay back these cheap dollars with dear ones. Avoid speculation. Above all, SAVE, now, while money is plentiful and prices are high. The cheap dollars of the present will be more valuable some day. Grab them now and hold onto them. It is the chance of a lifetime to save. Use our Bank as a depository. Every dollar entrusted to us will be carefully safeguarded.

## "Does What They Say It Will Do"

Day in Six Years—Dreaded To See Night Come.

"At the time I began taking Tanlac," said Marcus A. Hampton, 118 Pope street, Louisville, Ky., "I did not feel well a single day in six years.

"My stomach was suddenly out of order," said Mr. Hampton, "but so soon did I get through eating than I would blow up with sour gas and have the worst sort of pains shoot through my chest. I could not even eat the lightest kind of foods and feel comfortable afterwards, and, at times could not retain anything I had eaten. I had lost fifty pounds in weight and was alarmed about my condition, for often I had such bad spells that I thought my time had surely come. I actually dreaded for night to come, as I could not sleep much and always felt bad in the mornings as on going to bed, if not worse.

"Well, I was never able to find anything to give me an appetite and start me up hill until I got Tanlac. Almost as soon as I began taking this medicine I commenced to climb. I am just now on my fourth bottle and have regained ten pounds of my lost weight already.

"My appetite soon got a new start and my stomach trouble began to lose its grip, and when I finished my second bottle I was feeling like a new man. Ever since then I have been eating just anything I want and I always feel fine afterwards. The gas has stopped forming in my stomach entirely and I never feel a touch of indigestion. I am always glad when night comes now, for I can sleep like a child and get up in the mornings feeling fine, ready for a hearty breakfast and a hard day's work. I am glad to recommend Tanlac, for it is one medicine that I believe will do all they say it will."

Tanlac is sold in Mt. Vernon by Chas. C. Davis; in Bredhead by the Bredhead Pharmacy, and in Livingston by R. G. Webb; in Hiatt by W. M. Owens.

Frankfort, Ky., Sept. 21, 1920.

Robt F. Spence,  
County Agricultural Agent,  
Berea, Kentucky.

My dear Mr. Spence:—Permit me to acknowledge the receipt of your letter of September 13. My absence from the office is responsible for the delay in answering.

I shall be delighted to speak to your folks on October 2.

With cordial good wishes,  
Sincerely,  
Geo. Colvin,  
State Superintendent.

## The Community Spirit AFLAME IN ROCKCASTLE

The spirit of community uplift and get-together meeting has been the slogan of the entire country this week. —Toers has been come fifteen or more men, under the leadership of our efficient County Agent Robt F. Spence, who have divided themselves in six or seven groups, and each group has visited from two to five different rural schools, each day, carrying the message of better homes, farms, schools, and roads to every district in the county. Mr. Spence, through his untiring efforts, managed to have several

## NURSING SERVICE IS RAPIDLY EXPANDING

This American Red Cross Work Flourishing in Small Towns Throughout Country.

More than 37,000 graduate nurses have been enrolled in the American Red Cross to date and its department of nursing is daily increasing this enrollment.

The department of nursing has been authorized to maintain an adequate force of nurses for the army and navy. It will continue to supply the needs of the United States Public Health Service to which it has assigned more than 1,000 nurses in the last year.

It will assist in establishing proper nursing service in foreign countries where the American Red Cross has organized hospitals, dispensaries and schools for nurses. Courses in home hygiene and care of the sick have been started for thousands of women who have never received any education in this direction. Rural nursing which was in its infancy a short while ago has been put on a sound basis through the work of the department of nursing and local Red Cross chapters.

Public health nursing has been extended to many rural communities and now flourishes actively in hundreds of small towns and counties. Nearly a thousand efficient nurses have already been assigned to this kind of work.

The department of nursing is uniting with other organizations in a year's campaign in recruiting nurses for training schools, in educating the general public as to standards of nursing education and in showing communities their responsibility toward schools of nursing. It will endeavor to meet all these needs as well as to continue the enrollment of dietitians who will be utilized as instructors in home dietetics, in developing nutritional clinics, and in supplying dietitians for the United States Public Health Service and the civilian hospitals.

The Nursing Service will continue to offer to women and young girls the opportunity of securing instruction in home hygiene and care of the sick in every community in the country. This instruction has not only laid the foundation for public health but in some places has given impetus to the establishment of hospitals and community school houses.

"As a community profits by the work of the nurse," says Miss Clara D. Noyes, director of the department of nursing, "it is logical that the community should be aroused to its responsibility. The American Red Cross stands ready to help in a general campaign of recruiting and nurse have the support, sympathy and understanding of the medical profession as well as the intelligent co-operation of the people at large."

MOUNT VERNON, KY., FRIDAY, OCTOBER 2, 1920

Entered at the Mt. Vernon, Ky. Postoffice as second-class mail matter.

Published every Friday by R. H. MILLER

## TO THOSE WHO HAVE BEEN MY PATRONS

I HAVE sold the **Mt. VERNON SIGNAL** and now have the pleasure of presenting Mr. R. H. Miller as your new editor. Mr. Miller is in every way capable of giving you a splendid paper. And in transferring the business and good will of the old management to him, I earnestly solicit for him the splendid patronage, fellowship and courtesy that I have enjoyed.

The year that I spent as owner and editor of the **SIGNAL** was a very busy year, and yet one that was in many ways profitable and pleasant. The subscription list has grown without an effort on my part to increase it and it has never been necessary to solicit work, as we have always had more work than the force and equipment were equal to.

Few editors, if any, have been treated with more courtesy than I have been. Then I have had the satisfaction of knowing that no publication was ever freer from the scandals and corrupt things of the county, as I had no desire to advertise these. On the other hand, I have tried at all times to give space and editorial support to every educational, agricultural and moral interest that has in any way been promoted.

I thank you for all business that you have given me. I appreciate every courtesy shown me. And I have only the best of wishes for your future prosperity and happiness.

H. T. YOUNG.

## ANNOUNCEMENT

To the People of Rockcastle County:

With this issue I am taking control and management of the **Mt. VERNON SIGNAL** as its sole owner. I have felt for some time a desire to enter the newspaper business. This is a new work for me and I enter it feeling that I will need all the assistance and co-operation that a generous public will be willing to extend. It shall be my endeavor to publish a good newspaper, giving all items of news that will be of interest to subscribers, both of local and general nature, with the general interest of Rockcastle County and its people at heart, and so conducted that it can go into any home without destroying the innocence of any child.

Politically the paper will be Republican, taking no hand between republicans in County primaries, but reserving the right to advocate our choice in district and state primaries.

Our efforts will be for the betterment of the county, socially, morally and religiously; for better roads, better schools and closer co-operation along all these lines.

Under my contract with the former owner all subscribers will receive their paper until their present subscription expires. We invite their patronage thereafter, and solicit new subscribers and patrons.

We also wish to express our heartiest appreciation of the courtesy of the retiring editor, Mr. H. T. Young, who has so kindly assisted us in the preparation of this issue.

Very sincerely yours,  
R. H. MILLER.

## Not Accidental

By WILL H. HAYS

Chairman of the Republican National Committee

THE result in Maine was no accident.

It was the result of intelligent study of the issues and honest, patriotic political organization work.

No feature of the great victory was more gratifying than the demonstration of the dependability of the women in this national crisis. I prove the wisdom of suffrage.

The Republican workers of Maine have looked upon their patriotic service as a matter of political duty; for months every opportunity has been given for fullest participation by the Republican women, though they did not yet have the franchise.

The lesson of the Maine election is the splendid example it sets for all of us.

The work of the rest of us is not in Maine now, but in our own precincts. The Maine victory loses its significance unless because of it we are enabled to go to our own work with renewed vigor and enthusiasm.

Organize for victory.

Let there not be a moment's hesitation.

This year we must have a "school house" campaign. Everybody agrees that the extent of the Republican victory will be measured in direct proportion to the knowledge on the part of the people of the facts. The way to make this certain is not only to organize every vote in every precinct, as we are planning to do, but also have educational "school house" meetings. Most earnestly I urge each precinct committee-man to arrange at once their "school house" meetings. Take it up with the county chairman—insist on the county chairman providing local speakers. The precinct committee-man can make the success of the meetings certain.

Nothing is more important for the nation's welfare than making this Republican success so overwhelming that it will forever end wanton extravagance, inefficiency and autocracy in government, and declare in a voice that will be heard around the world, that America is America for Americans first, and the preservation of its integrity in that relation is the greatest safeguard in the future, not only for citizens of this country, but for all peoples everywhere, as the one certain Gibraltar in the world's storms which may yet in the future come and probably will come until the millennium shall have arrived.

There will be a new glory to the Stars and Stripes when the Sun rises on the morning of next November third.

—The National Republican.

## CONSTIPATION.

The beginning of almost every serious disorder is constipation.

If you want to enjoy good health keep your bowels regular. This is best accomplished by proper diet and exercise, but sometimes a medicine is needed and when that is the case you will find Chamberlain's Tablets are excellent. They are mild and gentle in their action, easy and pleasant to take. Give them a trial. They only cost a quarter.

## Every Drop an Asset

As a dairy farmer you can figure out to the penny what your cream is worth. You know that every particle of butter fat has a distinct value to you. You cannot afford to use a separator that misses any cream.

The **Primrose Cream Separator** gets every drop of cream. The principle on which it operates is as simple as the mechanism. The frame is open and sanitary—the supply can large and low. Every bearing and quiet gear is well oiled by a splash system.

In **Primrose** separators, good workmanship and materials, close skimming and durable qualities, are the distinguishing points. These are points that vitally concern your profit.

No matter what the size of your herd, the **Primrose** is a money-maker. Two-or-three-cow farmers use them with profit.

The **Primrose** is the only cream separator that automatically drains out the used oil from the gear case when new oil is added.

Let us demonstrate this and other points. If it is not convenient for you to call, phone us and we will bring a machine out and show you how it operates and what its financial advantages are to you.

# Reduction In Prices of FORD Products

## The War Is Over and War Prices Must Go

Effective at once, Ford cars, trucks and tractors will be sold f.o.b. Detroit at the following prices:

Touring Car, less Starter	<b>\$440.00</b>
Touring Car, with Starter	<b>510.00</b>
Runabout, less Starter	<b>395.00</b>
Runabout, with Starter	<b>465.00</b>
Chassis, less Starter	<b>360.00</b>
Coupelet, with Starter and Demountable Rims	<b>745.00</b>
Sedan, with Starter and Demountable Rims	<b>795.00</b>
Truck, Pneumatic Tires, less Starter	<b>545.00</b>
Tractor	<b>790.00</b>

The Ford Motor Company makes this reduction in the face of the fact that they have on hand immediate orders for 146,065 cars and tractors. The Ford Motor Company will be suffering a temporary loss while using up the material bought at high prices. They are willing to make the sacrifice in order to bring business back to a going condition as quickly as possible and maintain the momentum of the buying power of the country.

We are at your command with regular Ford efficiency in service and eagerness to fill your orders.

HENRY FORD says:

"The war is over and it is time war prices were over. There is no sense or wisdom in trying to maintain an artificial standard of values. For the best interests of all, it is time a real practical effort was made to bring the business of the country and the life of the country down to regular pre-war standards."

The Republican County Committee, in recommending election officers to the County Election Commissioners, recognized the women by selecting a Republican woman as an election officer in each of the voting precincts of the county. It is our belief that the committee acted wisely. In the first place it is a deserved recognition of the women, and in the second place, the women voters will feel more free to go to the voting places when they know there are women officers there, assisting in holding the election. This is another case of the Republicans doing the right thing at the right time.

**Campaign Opens In  
Rockcastle**

The Republicans of this county opened the campaign last Saturday with speeches by Hon. T. P. McGregor, Assistant Attorney

General of the State, and Mrs. Herbert Mengel, of Louisville, eloquence of an old time campaigner.

A feature of the meeting was the speech of Miss Dossie Niceley introducing Mr. McGregor. This was Miss Dossie's maiden effort.

Mr. McGregor's speech was mainly a discussion of the National issues, and that portion dealing with the League of Nations was given especially close attention and was handled by the speaker entirely to the satisfaction of the audience, since the Republicans of this county have all along been opposed to the League.

The speech of Mrs. Mengel was listened to with great attention and greatly appreciated by the audience. It dealt largely with the duty of the women in the coming election. It was her advice to the women that they support Senator Harding for President. She states that the manner in which he is conducting his campaign is not only dignified, but showed him to be a Statesman; and on the other hand the methods adopted by Governor Cox indicate that he is a politician of demagogic tendencies. She also stated that she had studied the record of both parties, and that all along the Republican party had been more friendly to the women; that 29 of the biggest Republican states in the Union had ratified the Constitutional Amendment giving the women the right to vote, while only seven Democratic states ratified it.

At the close of the speaking the Republican committees, men and women, met and completed the selection of the campaign committee in the different precincts of the county. All committees now having been selected, the fight is on to poll the entire Republican vote both men and women at the coming election. There is now a contest between the Republican man and Republican women to see which will poll the greater number of votes. This paper is betting on the women.

**Was  
Very  
Weak**

"After the birth of my baby I had a back-set," writes Mrs. Mattie Crosswhite, of Glade Spring, Va. "I was very ill; thought I was going to die. I was so weak I couldn't raise my head to get a drink of water. I took . . . medicine, yet I didn't get any better. I was constipated and very weak, getting worse and worse. I send for Cardui."

**CARDUI**  
The Woman's Tonic

"I found after one bottle of Cardui I was improving," adds Mrs. Crosswhite. "Six bottles of Cardui and . . . I was cured, yes, I can say they were a God-send to me. I believe I would have died, had not been for Cardui." Cardui has been found beneficial in many thousands of other cases of womanly troubles. If you feel the need of a good, strengthening tonic, why not try Cardui? It may be just what you need.
